

Tihomir Todorov

Hayes | London

Professional Summary

Commercially experienced technology and operations professional with a BSc in Computer Science and over 10 years of experience spanning sales, logistics, technical support and business operations. Generated over £2.3 million in personal sales while managing commercial customer accounts and developing new business opportunities.

Alongside my commercial role, I independently designed and built AI-powered and automation solutions to solve real business problems, including lead lifecycle automation, CRM reporting, automated quoting and AI-driven outbound prospecting. Experienced in combining technical skills with commercial and operational understanding to improve efficiency, automate repetitive processes and support revenue growth.

Experience

Sales Consultant & Business Development | Best Rate Removals & Storage | 2021–Present | London, UK

- Generated **£2.3M+ in personal sales revenue** by managing the sales process from lead qualification and pricing through quotation, negotiation and customer conversion.
- Prepared tailored removal and logistics quotations, calculating pricing based on volume, labour requirements, access, distance, complexity and additional services.
- Managed commercial customer accounts and developed relationships with new and existing customers.
- Managed the sales lifecycle from initial lead contact through quotation, follow-up and booking.

- Built an **AI-powered quoting system** that reduced quotation preparation time from approximately **10–20 minutes to under one minute**.
- Developed CRM dashboards and reporting systems to monitor lead volumes, response rates, conversion performance and sales activity.
- Built an **AI-powered outbound prospecting platform** to identify and research potential business customers and support targeted sales outreach.
- Independently developed automation and AI solutions using Python, JavaScript, Google Apps Script, APIs and LLM integrations, applying technical skills to real-world commercial and operational challenges.

Moving & Logistics Coordinator | Best Rate Removals & Storage | 2016–2021 | London, UK

- Coordinated logistics, crews, schedules and customer communications.
- Managed customer complaints and insurance liability claims, working to resolve issues and maintain customer satisfaction.
- Collected and processed customer payments for completed moves.

Technical Support | NetSurf | 2011–2013 | Montana, Bulgaria

- Provided broadband and network technical support and troubleshooting. **Education**
